Absent: Bob Congionti, Joshua Goldstein, Maureen Danzig, Tony Piazza

No minutes were approved from December.

We had a short meeting on February 8.

Our proposal for a phase of the Montebello Trail is on hold due to some legal issues. We did discuss surface materials, the path on the east or west side of Hemion Road and it's direction toward Route 59 crossing at the old shopping center through the new "Montebello Crossing", Taagaste Monastery and to the library.

We had a discussion about the park and the ice skating that is going on.

This is not allowed, it is clearly written on the entry sign and if the signs at the ponds are still there it's clear too. If there are skaters please report it to the Police.

The question was asked if the bubblers prevent the ice? I guess not since there is skating going on. Question as to whether or not they are still functioning, they are solar driven.

meeting adjourned 8:20

Respectfully submitted by Amy Rapoport-Chair
