One Montebello Road  
Montebello, NY 10901

RE: Homeland Towers, LLC 350 Haverstraw Road, Village of Montebello, NY

Dear Honorable Mayor Millman and Members of the Board of Trustees:

As previously discussed, we remain committed and look forward to improving coverage and safety to the residents of the Village of Montebello. The use of telecommunications infrastructure by carriers allows the public to reach out to first responders in times of need. The proposed tower can also be used by your local first responders to enhance their internal communications as well.

Homeland Towers will commit to allow the Village's first responders to utilize the highest part of the tower and space within the secure compound for its communication network with no recurring rent charges for the life of the lease, and we'll be updating the lease to ensure we document this important use. We will also work with other public safety entities in the area, including Rockland County, to ensure the site is designed to structurally support any planned future use they may have.

Sincerely,

Manuel Vicente  
President
